

Photographs from Illawarra Lapidary Club 2013 Exhibition

First some of the vendors whose support is most appreciated.

A great array of items available for sale from lapidary equipment, rough through to finished stones and jewellery.

Some of the larger exhibits

Large display case

Now some of the items slightly closer

Just look at the thickness of the small bowl - its only about 2mm thick all out of the solid stone - Fantastic

More bowls from the solid stone but far thicker walls and the ruby zoisite animal

More bowls and a mawsitsit animal carving

Red tiger eye and rhodocrosite - beautiful colour and pattern

Club prize winning entries

Selection of some of the other display cases

Monday Cabbing

The newest class - enamelling

Thursday for silver working including casting

Another new class - Lampwork and glass bead making

Silver casting

Part of a members vast collection of mineral, gem and other stone items.

Some of club members items on sale at the club table

Fossicking items found in 2013
